

**To  
The Filmmakers, distributors,  
& Office-bearers of Film Associations in India,**

**Dear All,**

*Trust that you are fine and taking adequate measures to protect yourself, your family, and employees in view of the COVID 19 pandemic facing us.*

*This unprecedented situation has compelled us to undertake certain measures.*

*In order to safeguard the health of our clients, panel members, employees and officers of Central Board of Film Certification (CBFC), it has been decided to keep the workplaces of all nine CBFC offices in India closed, till further review post 31<sup>st</sup> march confirms the easing of pandemic situation in India. This effectively would imply that, for the time being, the screenings of films would need to be suspended in all CBFC offices.*

*We understand that you would be concerned with potential disruptions to your business due to this situation. The Board is also equally concerned about our film fraternity and are constantly taking stock of the situation. We hope to resume the screenings once the COVID-19 situation is in control.*

*Meanwhile, the officers and employees have been directed to conduct the back end work from home, wherever feasible. The online applicant registrations and film applications, and their online scrutiny will continue during the period of closure of workplaces. The helpline numbers have been set up by all CBFC offices, as mentioned in the table below, for communication with the concerned and to solve queries. Please advise your members to utilize these facilities.*

*I request you to support and bear with us in this unprecedented circumstance.*

*Let's navigate this period together and am positive that work will be back on track soon.*

**Regards,**

**Prasoon Joshi**

**23rd March 2020**
